

PRESENCE BUILDER LOCATION PAGES

LOOK GREAT FOR CONSUMERS AND SEARCH ENGINES.

According to Google: "It turns out that you can lose more than the sale with a bad mobile experience. A site that's not designed for mobile can leave users feeling downright frustrated, and these negative reactions translate directly to the brands themselves."

Google's right. No matter the size of your business, a mobile-optimized website is crucial. With Location Pages, your customers can easily find your location, contact information and much more!

RESPONSIVE EASY TO LINK EASY TO CREATE ANALYTICS

Responsive design allows your site to adjust to the size of any screen, which Google prefers over regular websites.

Never worry about your customers having a bad browsing experience again. Location Pages look great on any screen.

Link your current website, Facebook page, Twitter account, YouTube Channel and RSS feeds through your location page to help guide your customers through all of your media channels.

Easily add/remove pages, edit content and upload images to your site, as well as select from a series of eye-catching designs.

With this easy-to-use format, you can keep your location page up-to-date without dreading the editing process.

Analytics are available via CSV files to show:

- Unique visits
- Page Views
